## Professional Experience

**Accenture Philippines** (Work from Home)

**Application Development Analyst – Software Engineer** (Front-End Web Developer [Angular])  
**May 31, 2021 – Present**

- Chief Information Officer – Quality and Risk
  - Worked with IDRA UI – An Accenture's internal tool used to determine the quality and risk of a certain opportunity of a project.
    - Angular
    - Git
    - Azure DevOps
    - AWS (Lambda)

**Joinpiggy** (AIC Burgundy Empire Tower [Burgundy Empire Tower Asia Development Bank Avenue Corner Garnet Road, Ortigas Center, Quezon City, 1655 Metro Manila])

**JavaScript Developer** (JS DEV / Front-End)

**January 27, 2020 – May 20, 2021**

- The company's browser extension enables users to automatically apply coupon codes upon checking out with an online merchant to save money and earn cash back rewards.
- As a JavaScript Front-End Developer, we are working closely and only with the extension's modal, we do not work with the design or front-end (full stack devs) as they have a separate developer assigned for that.
- We ensure that the user have a smooth experience with applying coupon codes and earning cash back rewards.
- Peer to peer code reviews is done (GitHub) to ensure that the code is accurate and has less probability of having errors before letting the QA thoroughly test it before going into production.
- The following are used within the company: Visual Studio Code, Browser, Joinpiggy's browser extension, Windows/Linux (Ubuntu) Operating Systems, GitHub, Jira, JavaScript, and a little bit of jQuery and ajax

**Nfinite IT Solutions** (3 Calle Uno Bldg. Escoda St [First Road] cor. Naguilian Road, Quezon Hill)

**October 01, 2019 – January 27, 2020**

**PHP Developer** (Homebased Project)

- A homebased project which lasted for about three months

171-0-1 22nd Avenue, East Rembo, Makati City, Philippines

- The developer agreed that I will be working only on my free time or when I was not working with Teleperformance Philippines at the time
- The work I helped with was the project relating with barangay system, specifically, registry of barangay inhabitants.
- Helped/Worked with some of the design, log-in page, also with the database using MySQL
- Used PHP, HTML, CSS and a little bit of JavaScript with this one

**Teleperformance Philippines** (*SM Aura Premier* [26th Street, Corner McKinley Pkwy, Taguig, 1630 Metro Manila])

**Caption Agent/Captioning Agent/Captioning Assistant**

**September 17, 2019 – January 25, 2020**

- Helping the deaf and/or hard of hearing person with communicating to other people on the line by repeating everything and whatever the people on the other line says
- Used a software called 'dragon' which will then translate whatever you say into a text or a string
- The converted texts or strings will be sent over to the deaf/hard of hearing's special phone with a screen on it has and then they will just read whatever is on there
- Worked with a nightshift/graveyard shift

**Nityo Infotech** (*Lazada Express* [Sortation Site], Tanyag, Taguig)

**IT Support** (A 3-week contract for their sale at that time)

**July 02, 2019 – July 24, 2019**

- My role there as was to help their IT Support in fixing the hardware problems being encountered by the staffs/Lazada employees/Lazada workers, these includes, problems with printers (not printing, out of ink etc.), no internet connectivity, trouble shooting of the printers etc.
- Solving of problems are ticketing based using Jira

**Bases Conversion and Development Authority** (BCDA [2/F Bonifacio Technology Center, 31st Street corner 2nd Avenue, Bonifacio Global City, Taguig])

**IT Helpdesk/Programmer** (On-The-Job Training Program)

**Jan 2019 to May 2019**

- Helped with the company's programmer about their PSMES – Project Schedule Monitoring and Evaluation System by writing JavaScript codes in the script editor using Google Sheets Objective Looking for a challenging role to grow as a person. Utilize and expand my knowledge and skills as I socialize with other people especially with my co-workers.
